MALTING QUALITIES OF BARLEY

A Short List of References Compiled by Louise O. Bercaw, Library, U. S. Bureau of Agricultural Economics.

Beaven, E. S. Varieties of barley. (London, Harrison & Sons, 1902) (542) - 600 p. 59 B38
"Reprinted from the Journal of the Federated institutes of brewing, vol. VIII, no.5, July and August, 1902."
"Data for determining malting quality:" p.557-563.

Biffen, R. H. An attempt to find a basis for the improvement of the barley crop. (In Institute of brewing Journal, v.12 (v.3,n.3) no.4, Apr. 1906, p.344-369) 390.9 In7
Includes discussion.

Blaringhem, Louis. Etudes sur l'amelioration des crus d'orges de brasserie. Paris, Societe d'encouragement de la culture des orges de brasserie en France,1910. 288p. 59 B61
"Index bibliographique:" p.279-283.

Bleisch, C. Die gerste, mit besonderer berucksichtigung ihrer eignung als brauware. Berlin, P. Parey, 1914. 39p. (Landwirtschaftliche hefte, herausgeher dr. L. Kiessling... hft.25) 18 L238
Not examined.

Bolin, Pehr. Hvilka fordringar kunna och bora stallas pa ett godt maltkorn? (In Landtmannen, v.8, no.38, 40, Sept. 18, Oct. 2, 1897, p.534-538, 564-569) 11 L232
This article is on the essential properties of good malting barley.

Boullanger, Eugene, and Massal, L. Etudes experimentales sur l'orge de brasserie. 105.8 In8
Ann. Inst. nat. agron. ser. 2, tome 5, p.359-458. Paris, 1906.

Brizi, Ugo. Ricerche botaniche intorno ad alcuni orzi da birra eseguite negli anni 1915-1916. (In Milan. Reale scuola superiore di agricoltura Istituzione agraria Dott. Andrea Ponti. Annuario... v.13, 1915-16, p.147-169) 105.4 M58A
"Tabulated data, showing the vegetative characters, yields, and malting values of 22 varieties and strains of barley, are presented and discussed. Similar data are presented for 5 varieties grown both as spring and winter barleys." Exp. Sta. Record, v.39, p.232.

Damseaux, A. (The production of a good malting barley) (In Annales de la science agronomique Francaise et etrangere, ser. 2, 1, No. 2, 1896, p.215-242. 14 An75
"The author treats of area sown to barley in Europe, varieties, qualities desirable in a malting barley, the best soil, manure, place in rotation, preparation of each, sowing the seed, enemies and diseases, harvesting and threshing." - Exp. Sta. Record, v.7, p.764.
Not seen.

November 17, 1927.

MALTING QUALITIES OF BARLEY

A Short List of References Compiled by Louise O. Bersem,
Library, U. S. Bureau of Agricultural Economics.

Beaven, E. S. Varieties of barley. (London, Harrison & Sons, 1902)
(542) - 600 p. 59 B38
"Reprinted from the Journal of the Federated Institutes of brewing,
vol. VIII, no.5, July and August, 1902."
"Data for determining malting quality:" p.557-563.

Krause, K. Die qualitätsbestimmung der braugersten. (In Deutsche landwirtschaftliche presse, v.22, no.34, Apr. 27. 1895, p.330-331) 18 In2s
On judging the quality of barley for brewing.

Lancaster, H. M. Fourth report on the influence of soil, season and manuring on the quality and growth of barley of the 1925 crop as indicated by the malts made therefrom. (In Institute of brewing. Journal, v.33, no.3, p.111-119)
Not seen.

Lancaster, H. M. Report on the experiments on the influence of soil, season, and manuring on the quality and growth of barley as indicated by the malts made therefrom. (In Institute of brewing. Journal, v.30, no.3, 1924, p.162-181) Not seen.
"The tabulations, which supplement a report by Russell (E. S. R., 50, p.233), show without comment the malting values of barley grown under different fertilizer treatments and soil conditions." - Exp. Sta. Record, v.51, p.36.

Le Clerc, J. A., and Wahl, Robert. Chemical studies of American barleys and malts. Washington, 1909. 75p. (U. S. Dept. agr. Bur. chemistry. Bul. 124)
This is the first report of an investigation authorized by Congress, the object of which was "to study barleys grown in different parts of the United States in regard to their use for brewing purposes."

Munroe, J. H., and Beaven, E. S. Manurial conditions affecting the malting quality of English barley. (In Royal agr. society of England. Journal, v.8, ser. 3, 1897, p.65-114) 10 R81
"The article compares barley and wheat culture in England, describes desirable qualities of barley for malting purposes, and considers the effects of manures on these qualities." - Exp. Sta. Record, v.9, p.436.

Munro, J. M. H. and Beaven, E. S. Various conditions affecting the malting quality of barley. London, 1900. 71p. 59 M92
From the Journal of the Royal Agricultural Society of England, ser.3, v.11, pt. 2, 1900.

Nottinghamshire. County council. Report of experiments on agriculture conducted in 1893. Nottingham, Printed by J. L. Young, 1894. 103 N842.
Experiments, by M. J. R. Dunstan, include one on the yield of different varieties of barleys, with report on their malting value.

Parker, W. W., (Reports on trials of four new barleys, 1921/23 and 1924) (In National institute of agricultural botany. Journal, 1925, p.3-26) 103 N21J
"Experiments reported on by W. H. Parker comprised trials during the period 1921-1924 of the yields and malting values of the new barley varieties Beaven 1920, Webb b. Cambridge 59/120, and Golden Pheasant..." Exp. Sta. Record, v.54, p.828

Pridham, J. T. Barley, By J. T. Pridham... The production of malting barley. By J. R. Davidson. Sydney, W. A. Gullick, government printer, 1916 22p. (New South Wales.Dept. agr. Farmers' bul. 112) 23 N47F
Not examined.

Not examined.

Parker, W. W., (Reports on trials of four new barleys, 1921\23 and 1924)
(In National Institute of agricultural botany. Journal. 1925. p.3-26)
103 M214

"Experiments reported on by W. H. Parker comprised trials during the
period 1921-1924 of the yields and malting values of the new barley
varieties Beaven 1920, Webb b. Cambridge 59\120, and Golden Measure..."
